

# **eIANA progress - update**

**Amsterdam, November 2005**

**Andrzej Bartosiewicz**

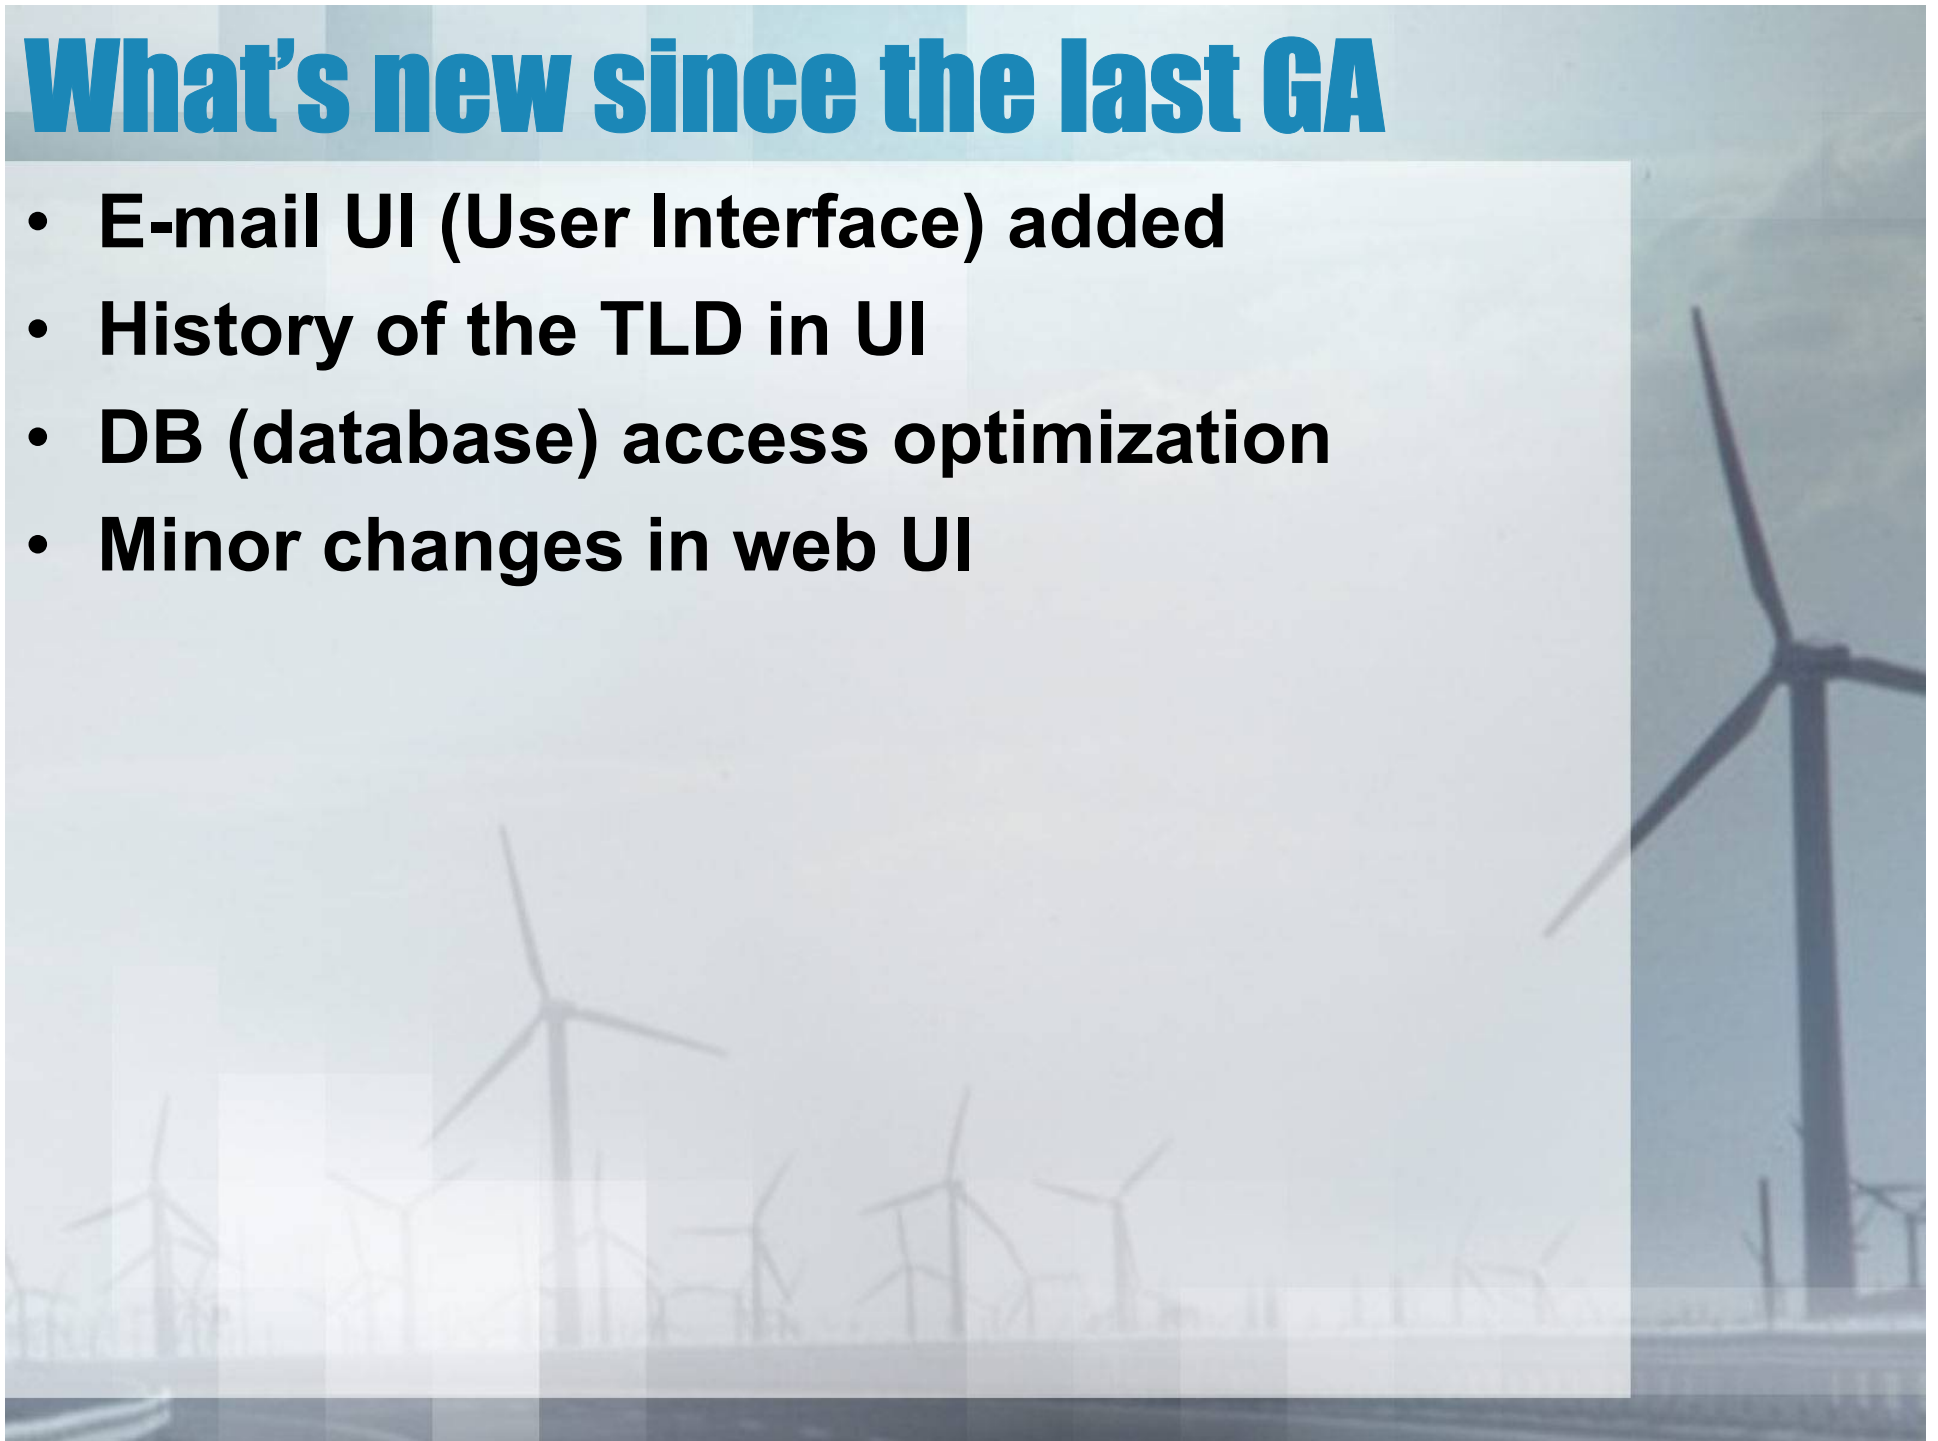

# Testing & Release

- **September 9 - October 21, 2005**
  - **testbed@wwtld.org** for bug reporting/suggestions etc.
  - **123 different people (excluding NASK) testing the system**
  - **Access to source code for interested parties (registries received source code: UK, Vatican, Mexico, Austria)**
- **Final release of version 1.0:  
October 31, 2005**

# What's new since the last GA

- **E-mail UI (User Interface) added**
- **History of the TLD in UI**
- **DB (database) access optimization**
- **Minor changes in web UI**

# ICANN/IANA

**ICANN asked for access to source code for evaluation and got the access (November 16, 2005)**

**NASK has confirmed that is willing to tailor the system to ICANN requirements.**

# **IANA PGP working group**

**Action 27.7: (supercedes Action 25.2) The PGP working group to develop Best Practice guidelines for PGP-based registry operations, including matters such as key generation, key rollover, and key revocation. The Secretariat to continue coordinating their work as necessary.**

**Final document to be distributed at the GA meeting by Giovanni.**
